SUMERIANS AND AKKADANS practiced polytheism, the worship of many gods. They believed that keeping the gods happy was key to their own happiness and prosperity. On the other hand, if the gods were angry, they might bring suffering and disaster. Sumerians built huge temples called ziggurats. They believed these temples linked Earth with the heavens and linked people with the gods.

1. Look at the illustration. Notice the number of stairs. What does the size of the temple tell you about the value the Sumerians placed on their gods?

________________________________________________________________________

________________________________________________________________________

2. From the reading passage, what did the Sumerians and Akkadians look to their gods for?

________________________________________________________________________

________________________________________________________________________
The Epic of Gilgamesh, one of the oldest pieces of literature, is made up of ancient folklore, tales, and myths. It was written in Mesopotamia about a strong and powerful king named Gilgamesh, who was believed to be part god, part man. The story describes his desire to live forever. Gilgamesh goes on a long journey to find the secret to immortality but in the end, he realizes that he must die like other humans.

When the gods created Gilgamesh they gave him a perfect body. Shamash the glorious sun endowed him with beauty, Adad the god of the storm endowed him with courage, the great gods made his beauty perfect, surpassing all others, terrifying like a great wild bull. Two thirds they made him god and one third man.

Source: The Epic of Gilgamesh, translated by N.K. Sanders

1. Looking at the passage from the Epic of Gilgamesh, name at least two gifts the gods gave Gilgamesh.

2. Despite these gifts, what does Gilgamesh learn about himself at the end of the story?
Sumerians created cuneiform script over 5000 years ago. It was the world's first written language. Sumerians invented this writing system to keep track of business dealings because they traded with people who lived in lands that were hundreds and even thousands of miles away. Writing was a giant leap forward in the development of civilization. People kept records and new ideas were now able to be passed easily from generation to generation. Sumerians also wrote stories, proverbs, and songs too. Cuneiform was written on clay tablets, and then baked hard in a kiln(oven).

1. What was cuneiform and who invented it?

2. Name three ways that Sumerians made use of cuneiform.
