## **Helpful Hints**

### **1. Smaller is Better:**

The apps default *notification setting* is 1 mile. We recommend changing this to a smaller setting for most of your neighborhoods. Go to “notification” and “edit notification radius”. The app will notify you whenever your bus enters the circle you create. You will need to edit this for BOTH the AM and PM stops.

### **2. Customizable Notifications:**

You can select email, push notifications or both for your notifications. You can also select what you want to be notified of. For example: Bus Substitutions, Stop Radius Entry, Stop Radius Exit and Student Scans.

#### **DISCLAIMER:**

- With this app you may still need to provide proper identification at the bus driver’s request.
- Knowing the bus’s location also means that you need to be at the bus at least 5 minutes before the scheduled time.
